

USER PERSONAS

TaskMate — Student Productivity App

Document Version : 1.0

Prepared By : Hrutuja Ingole

Date : 26 April 2026

Purpose : To represent the key user types that
TaskMate is designed for

PERSONA 1 — THE OVERWHELMED STUDENT

Name : Priya Sharma

Age : 20 years old

Location : Pune, Maharashtra

Education : Second year, B.Tech Computer Engineering

Phone Used : Android (Redmi Note 12)

BACKGROUND

Priya is a full-time engineering student juggling 6 subjects, 2 lab practicals, and a part-time internship 3 days a week. She relies on WhatsApp reminders from classmates to remember deadlines and often forgets assignments until the night before.

GOALS

- Track all assignment deadlines in one place
 - Get reminders at least 24 hours before a deadline
 - See a daily view of what needs to be done today
 - Feel less stressed and more in control of her schedule
-

FRUSTRATIONS

- ✗ Google Keep has no deadline or reminder features
- ✗ Calendar apps feel too complex for simple task tracking
- ✗ Sticky notes get lost and don't send reminders
- ✗ She forgets to check her planner consistently

TECH COMFORT LEVEL

Apps used daily : WhatsApp, Instagram, YouTube, Notion

Tech skill : Medium — comfortable with apps but
does not like complicated setups

Data sensitivity: Prefers free apps, avoids paid plans

QUOTE

"I don't need something fancy. I just need one place
where I can see everything I have to do today."

PERSONA 2 — THE PART-TIME WORKER STUDENT

Name : Rahul Verma

Age : 22 years old

Location : Mumbai, Maharashtra

Education : Final year, BBA (Business Administration)

Phone Used : Android (Samsung Galaxy A34)

BACKGROUND

Rahul works 20 hours a week at a retail store while completing his final year of BBA. He has college projects, exam preparation, work shifts, and personal errands all competing for his attention. He needs to switch contexts quickly between his student and work life.

GOALS

- Separate work tasks from college tasks cleanly
 - Plan his week every Sunday in under 10 minutes
 - Get notified before important deadlines
 - Track which tasks he completed vs missed each week
-

FRUSTRATIONS

- ✗ To-do apps don't allow task categories (work vs study)
- ✗ Reminder apps spam too many notifications
- ✗ No easy way to see weekly progress or completion rate
- ✗ Most apps require too much setup time

TECH COMFORT LEVEL

Apps used daily : LinkedIn, Gmail, Google Maps, YouTube

Tech skill : Medium-High — uses productivity apps
regularly, open to new tools

Data sensitivity: Okay with free apps that don't
require credit card

QUOTE

"I want to plan my whole week in one go on Sunday
and just follow through. Simple, clean, no excuses."
